

Monarch School Outcomes Data

At the end of every school year, data is collected from the annotations on finalized/signed Individualized Education Programs (IEPs) and Individual Service Plans (ISPs) of all students at Monarch School. This data is analyzed for the school as a whole and by domain (e.g., Speech & Communication, OT). Below is a summary of the data from the 2016-2017 school year.

School-Wide:

# of IEPs* (school-wide)	Goals (% that achieved Adequate Progress or Higher)	Objectives (% that achieved Adequate Progress or Higher)
112	85.35%	84.36%

* Note: data was not included for the following students: those who did not complete a full year at Monarch; those for whom data was not collected for a significant period of time due to unforeseen circumstances; those for whom an IEP was not written by staff at Monarch.
